SLOVENIJA / SLOVENIA

O Sloveniji

Slovenija leži na stičišču alpskega, sredozemskega, panonskega in dinarskega sveta. Raznovrstnost na tako majhnem prostoru dopolnjuje ohranjena narava; več kot polovico Slovenije pokrivajo gozdovi, več kot tretjina ozemlja spada v območje Natura 2000. Slovenija je zelena, kreativna, pametna država in članica Evropske unije, ki zna ohranjati svojo identiteto. Na prostem trgu temelječe gospodarstvo je dinamično, digitalizirano, inovativno in usmerjeno v trajnostni razvoj. Ponosni smo na vrhunske slovenske dosežke v športu, naprednih tehnologijah in znanosti ter na živahno umetniško ustvarjanje in z ljubeznijo ohranjeno dediščino.

About Slovenia

Slovenia lies at the crossroads of the Alpine, Mediterranean, Pannonian and Dinaric worlds. The diversity in such a small area is complemented by preserved nature; more than half of Slovenia is covered by forests, more than a third of the territory belongs to the Natura 2000 area. Slovenia is a green, creative, smart country and a member of the European Union that knows how to preserve its identity. The free market-based economy is dynamic, digitalized, innovative and focused on sustainable development. We are proud of Slovenia's top achievements in sports, advanced technologies and science, as well as its vibrant artistic creation and lovingly preserved heritage.

POLJČANE

Iskrica o našem kraju

Velik odstotek lokalnega prebivalstva se vključuje v delovanje društev, klubov in drugih prostovoljnih organizacij na kulturnem, turističnem, športnem, kmetijskem, humanitarnem ali kakšnem drugem področju. Ravno društva so največkrat pobudniki in organizatorji lokalnih prireditev, ki poskrbijo za pestro družabno življenje v občini in privabljajo tako domačine kot obiskovalce okoliških krajev.

OBČINA POLJČANE

A little about our place

A large percentage of the local population is involved in the activities of associations, clubs and other voluntary organisations in the cultural, touristic, sports, agricultural, humanitarian or other fields. It is these associations that are most often the initiators and organisers of local events, which ensure a varied social life in the municipality and attract both locals and visitors from the surrounding areas.

SPOŠTUJMO OKOLJE / LET'S RESPECT THE ENVIRONMENT

Vsi udeleženci v športu si morajo prizadevati za:

1. širjenje znanja in razumevanja povezav med športom, okoljem in naravo – tako o pozitivnih, kakor tudi negativnih, za naravo ali človeka ogrožajočih vplivih
2. ohranjanje narave v vsej njeni celovitosti, kompleksnosti in pestrosti
3. uporabo okolju in naravi prijaznih in energetsko varčnih materialov, pripomočkov in objektov
4. omejevanje porabe in slabšanja stanja pitne vode, energetsko učinkovito porabo in za omejevanje vseh vrst škodljivih vplivov na okolje in naravo
5. spodbujanje uporabe obnovljivih virov

All participants in sports must strive to:

1. preserve nature in all its integrity, complexity and diversity spread knowledge and understanding of the connections between sport, the environment and nature – both positive and negative,
2. threatening impacts on nature or humans
3. use of environmentally and nature-friendly and energy-saving materials, equipment and facilities
4. limit the consumption and deterioration of drinking water, energy-efficient consumption and to limit all types of harmful impacts on the environment and nature
5. encourage the use of renewable resources.
